The STORAC battery storage system is the sustainable alternative to conventional battery storage systems that keeps its value. As a decentralised storage solution that supplies electricity, it makes a power supply from 100 % renewable energies possible at all, even when there is no active renewable energy, for example no solar radiation.

Prolux Solutions is starting the rollout of its long-life battery storage for homes. The STORAC home storage system uses non-combustible redox flow battery technology and is produced in Europe in favour of short delivery distances. The 6 kWh storage unit was specially designed for private homes and intensively tested in practice.

Der Prolux Heimspeicher STORAC basiert auf der Redox-Flow-Technologie und steht einer gro&#223;en Anzahl von Lithium-Ionen-Speichertechnologien und -anbietern gegen&#252;ber. Wo diese mit sicherheitstechnischen und ethischen Herausforderungen zu k&#228;mpfen haben, kann Prolux mit STORAC auf eine nicht brennbare L&#246;sung und den v&#246;lligen Verzicht auf sel-
