Where are thornova solar modules manufactured?

Thornova has commenced module production at a new facility in Indonesia. Image: Thornova Solar. US-based solar manufacturer Thornova Solar has started producing solar modules for the US market at a manufacturing plant in Indonesia. The new module production lines has a 2.5GW nameplate capacity and can produce both PERC and n-type technologies.

Is thornova solar making solar cells in Indonesia?

Thornova Solar is making solar cells and modules in Indonesia, outside the reach of recent U.S. trade policy.

Why is thornova solar moving to Indonesia?

In response to U.S. tariffs placed on solar modules imported from Southeast Asia, Thornova Solar has shifted solar PV manufacturing to Indonesia. Thornova Solar customers in the U.S. market will be served by two lines with a name plate capacity of 2.5 GW each.

Who is thornova solar?

Thornova Solar is a U.S.-based solar company that offers high-performance solar modules for the utility, commercial and residential solar markets in North America.

Are thornova solar modules reliable?

Our management team has extensive experience in the solar industry and has established relationships with business partners in the U.S. and around the world. Thornova solar modules have proven reliability and performance, with up to 30-year performance guarantees.

Who are Sunova solar & thornova solar?

Sunova Solar and Thornova Solar are Tier 1 players, focusing on energy solutions and the design and manufacture of renewable energy components, such as photovoltaic modules, solar cells, inverters and solar battery storage solutions.
