

Potential for Grenada . Solar Photovoltaic (PV) A solar electric system converts sunlight into electricity using solar cells. Solar panels can be mounted on rooftops or the ground, and convert particles of light energy, known as photons, into direct current (DC) electricity.

We specialize in designing, installing, and maintaining systems for reliable cooling, energy savings, and a cozy indoor atmosphere. Choose our eco-friendly R290 and R32 options for a sustainable indoor environment with reliable cooling.

Project: 15KW home solar system. Location: Grenada. Solved: reduce high electricity bill. 380w mono solar panels * 24pcs H4T/192V PV combiner * 1pcs 192V/60A solar controller * 1pcs TF15KW 192V IGBT inverter * 1 pcs 12v 150ah gel battery * 32pcs cables and accessories * 1set . Our customers are in the ceramics and doors and windows business.

Xerogrid specify off-grid solar PV and battery storage equipment for direct export to grenada and the caribbean. We specialise in end-to-end delivery and distribution, as well as project management and support. Contact us today to ...

The project aims to increase Grenada's reliance on renewable energy and reduce its dependence on fossil fuels. PURC is seeking an independent power producer (IPP) to develop and operate either a 15.1MW standalone solar PV plant or a solar-plus-storage plant combining 15.1MW of solar PV and a 10.6MW/21.2MWh battery energy storage system (BESS).

Xerogrid specify off-grid solar PV and battery storage equipment for direct export to grenada and the caribbean. We specialise in end-to-end delivery and distribution, as well as project management and support. Contact us today to see how we can help you get off grid in The Caribbean and Grenada.

PURC is seeking an IPP to build and operate either a 15.1MW standalone solar PV plant or a solar-plus-storage plant combining 15.1MW of solar PV and a 10.6MW/21.2MWh battery energy storage system (BESS), Options 1 and 2 respectively. The deadline for submissions is 20 September 2024.
