

RACLAN is a by TÜV Nord tested charging and storage box for lithium batteries. It consists of a non-flammable composite and is equipped with a pressure-free extinguishing system. If the battery or the charger catches fire, the integrated sensors detect this immediately and sound the alarm. At the same time, a special, environmentally friendly ...

The Raclan Square Box rises to the challenge, ushering in an era of uncompromised safety. Our state-of-the-art box has been meticulously designed with the high seas in mind. It's not just about preventing fires; it's about ...

Diese müssen regelmäßig geladen und bei Nicht-Benutzung sicher verwahrt werden. Um beides sicher zu gewährleisten, wurde die RACLAN-Box entwickelt. Wiederaufladbare Batterien und ihre Ladegeräte werden in die Box eingelegt und eingesteckt. Die Tür wird mit dem Schwenkgriff gesichert und die externe Stromversorgung eingeschaltet.

Our new RACLAN SQUARE Box offers users who need lithium-ion batteries with a capacity of up to 3.5 kWh on ships or in harsh conditions such as: in forestry, on construction sites and in the defense service, want to load and store safely, an unprecedented option.

De Raclan box neutraliseert deze gassen door de ingebouwde koker die de gassen naar buiten drukt. In de koker zitten kamers die ieder een eigen karakteristiek hebben en de rookgassen reinigen, tot een niveau waarop ze niet meer schadelijk zijn voor onze gezondheid. De blusinstallatie in de box is het tweede element wat deze box bijzonder maakt.

When connected to a WLAN network, the system sends an alert to the in-house alarm system. Simultaneously, an eco-friendly extinguishing and cooling agent is sprayed onto the batteries. The box and gas management system are cooled, preventing any risk of fire or damage to the surrounding environment.

Discover the Raclan Box - where advanced Li-Ion battery fire prevention meets unparalleled design, offering you unrivaled safety for your batteries. Crafted from a fire-proof and explosion-proof composite, the Raclan Box stands as a testament to durability and resilience.

What sets the RACLAN Box apart is its ability to safely charge lithium ion batteries within the box. An integrated pressure-free extinguishing and cooling system is available, which automatically activates in case of overheating or ...

The RACLAN Box is the first of its kind to be tested and certified by DMT (TÜV NORD). BOXLAB Services not only provides innovative and sustainable solutions, but also adheres to the highest safety

standards. The RACLAN Box is the ideal solution for companies and individuals who want to transport and store lithium ion batteries safely.

Product Description: RAMBSS (Raclan Maritime Battery Safety System) In the world of lithium-ion batteries, there lurks a hidden risk: 1 in 8,000 cells can be defective, leading to a potentially catastrophic event known as "thermal ...
