What is reolink solar panel?

1. What is Reolink Solar Panel The solar panel is a device that converts sunlight into electricity. They are called "solar" panels because most of the time, the most powerful source of light available is the sun. A solar panel is a collection of solar cells. The more and stronger light that hits a cell, the more electricity it produces.

How to fix a reolink solar panel?

Loosen the adjusting control on the bracket and adjust the angle of the solar panel to make it receive direct sunlight exposure, then tighten the adjusting control to fix the solar panel. Step 5. Connect the solar panel to a Reolink camera with the micro USB cable. Make sure that there is NO blocking on the solar panel.

How to get non-stop power from reolink solar panel?

To get non-stop power from Reolink Solar Panel, you need to mount the Solar Panel at a perfect angle and position to maximize sunlight exposure with no blocking and other obstacles. The 360° wall mount of the Reolink Solar Panel allows you to easily place your Solar Panel in the perfect position. 1.

How do I mount my reolink solar panel?

#1 When mounting your Reolink Solar panel, please select a position with the most sunlight throughout the year for it to make sure your Solar Panel could get the best efficiency when harvesting energy. The ideal Angle of mounting your Solar Panel equals to the local latitude ± 5°.

What is the working temperature of reolink solar panel?

1. The working temperature of Reolink Solar Panel is "−10~+55°(14~131°F)". A temperature lower than −10° will significantly slow down the chemical reaction of the camera's batteries and Reolink Solar Panel. At the same time, cameras will indicate a low battery level.

How do I connect my reolink camera to a solar panel?

Connect your Reolink solar powered camera to this solar panel with 4m connection cable (included) to get non-stop power. (Download Quick Start Guide) 4.5m Reolink Solar Panel Extension Cable provided

Reolink 6W Solar Panel Black, Non-Stop Solar Power Supply for All Wireless Battery Camera Outdoor, Compatible with TrackMix/Argus PT Ultra/Duo 2/Eco Ultra/3 Ultra, Waterproof, Adjustable Mount(Black)

solar panel and camera is stable. o Make sure that your Reolink Solar panel is pointed toward the sun and is not obstructed by trees, buildings, or other obstacles. o Make sure that your camera is not working in temperatures below 0°C (32°F) or above 45°C (113°F). o If the problem goes on, contact Reolink support. Troubleshooting
