Will Fiji be able to source 100 percent of its energy?

Suva, Fiji, October 21, 2020- A landmark agreement between Energy Fiji Limited (EFL) and IFC to deliver the largest solar project of its kind in the Pacific to date has been hailed a transformative step that will take the island nation closer to its goal of sourcing 100 percent of its energy needs from renewable sources.

How will Fiji's New solar power project impact the world?

The \$A21 million project is expected to generate enough electricity to transition 14,000 Fijian households to solar energy and will dramatically reduce Fiji's reliance on imported fossil fuels. Currently, approximately 45% of Fiji's power needs are supplied through fossil fuels, 50% through hydropower, and the remaining 5% from biomass and wind.

Who supports the Fiji solar project?

IFC has been supported by the governments of Australia and New Zealand through the Fiji Partnership and the Danish Government to carry out this solar project in Fiji.

Will a 15MW solar project benefit Fijians?

With 90% of Fijians connected to EFL's power grid requiring total generation capacity of around 267MW daily, even a comparatively small 15MW solar project delivers a noticeable benefit of around 5% of the country's power needs.

How many MW does Fiji have?

Energy Fiji says its 237 MW generation portfolio includes 112 MW of diesel facilities at 14 locations. The nation has a total generation capacity of 267 MW, according to the IFC. This content is protected by copyright and may not be reused.

Does EFL need to meet Fiji's Electricity demand?

"EFL needs to meet Fiji's demand for electricity, which is growing with the increase in connectivity to rural customers via grid extension and the ever-increasing demand from industries and the business community," said EFL Chief Executive Officer Hasmukh Patel.

A press release issued by the IFC, the private sector arm of multilateral development lender the World Bank, revealed plans for a US\$15 million solar project to install at least 15 MW of generation capacity connected ...

A press release issued by the IFC, the private sector arm of multilateral development lender the World Bank, revealed plans for a US\$15 million solar project to install at least 15 MW of generation capacity connected to the Energy Fiji grid which supplies 90% of the nation's population.
