Why should you go solar in Cebu?

Embrace clean energy with Cebu solar solutions. Join the green revolution and harness the sun's power for a brighter, sustainable future. Go solar in Cebu today!

Who is a solar provider in Cebu City?

We are a Cebu City-based solar provider with a special focus on Net Metered and Battery Based energy solutions. We offer full-service residential and commercial solar systems, from consultation to installation, utilizing the latest technology and offering the most competitive rates in Philippines. We've got you covered.

Who is Solana Cebu solar?

We are a Cebu based solar company offering solar power systems with good quality installations and after sales. We provide good quality solar power systems & guaranteed after sales services. Solana Cebu Solar was established last May 14, 2018. Copyright © 2022. All Right Reserved.

Where will solar power be used in Cebu?

The electricity generated will be used within the Cebu plant, contributing to the reduction of grid power usage. This is the third location where we install large-scale solar power generation systems after two production plants in Thailand (Bang Pa-in Plant (Ayutthaya Prefecture) and Lopburi Plant (Lopburi Prefecture)).

Does Cebu City have higher solar power generation potential?

This demonstrates that Cebu City has higher solar power generation potential compared to many other locations globally. For optimal energy production from a fixed panel installation at this site, it is recommended to tilt the panels at an angle of 9 degrees towards the South direction.

How should solar panels be positioned in Cebu City?

In Autumn, tilt panels to 17°; facing South for maximum generation. During Winter, adjust your solar panels to a 26° angle towards the South for optimal energy production. Lastly, in Spring, position your panels at a 4° angle facing South to capture the most solar energy in Cebu City, Philippines.

Visayan Solar Power Installation Services Corporation was built with the aim of sustainability and cost-effectiveness as Cebu City becomes more highly-urbanized. They install state-of-the-art solar systems that will not only reduce your carbon footprint but also provide you with clean, renewable energy for years to come.

Visayan Solar Power Installation Services Corporation was built with the aim of sustainability and cost-effectiveness as Cebu City becomes more highly-urbanized. They install state-of-the-art solar systems that will not only ...
