

Will two solar plants be built in Senegal's southern Casamance region?

DAKAR, Nov 13 (Reuters) - Two solar plants with a combined 60 megawatts (MW) capacity and battery storage will be built in Senegal's southern Casamance region to electrify rural areas, Africa-based project developer Axian Energy said on Wednesday.

Does Senegal need a solar power plant?

Senegal's power sector has been historically reliant on costly fuel imports, with about 80 percent of its energy mix being oil-based. "The Kael and Kahone solar power plants exemplify our commitment to supporting Senegal's transition to cleaner, more affordable energy, while creating business opportunities for local communities.

How many people in Senegal will get solar power?

Nearly 540,000 people in Senegal will get access to clean and affordable power following the launch of two solar photovoltaic (PV) plants, financed by IFC, the European Investment Bank and Proparco, under the World Bank Group's Scaling Solar program.

Who sponsors Senegal's energy plants?

The two plants are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments (FONSIS). The competitive tendering was led by Senegal's Energy Regulatory Commission (CRSE).

Who owns Senegal's solar farm?

The power station was commissioned on 22 May 2022 by the President of Senegal Macky Sall and his guest Olaf Scholz, the Chancellor of Germany. The solar farm is owned and operated by Soci t  nationale d' lectricit  du S n gal (Senelec), the national public electricity utility parastatal company.

What is the largest photovoltaic plant in West Africa?

Scheduled for completion in 2026, the Kolda solar farm project stands out as the largest photovoltaic plant with BESS project in West Africa. This ambitious project will set a benchmark for the region by combining large-scale solar energy production with cutting-edge battery storage technology.
