

What makes Unicorn energy a sustainable company?

As Unicorn Energy, we represent the following values: sustainable growth, partnership, customer focus, personal responsibility, strategic and operational excellence, and quick decision-making. Climate protection only works if we focus on sustainable products and constant innovation.

Is Unicorn Energy GmbH a public limited company?

As of 01.07.22, Unicorn Energy GmbH will be converted into a public limited company (AG). It all started with a clever and sustainable energy storage system. Today, with its self-produced fuel cell and other green technologies such as electrolyzers, the company is one of the top suppliers in the industry.

Why should you choose Unicorn energy?

As Unicorn Energy, we therefore make sure that the products we develop are durable and have a low impact on the environment. We are also constantly developing our products to make them even more environmentally friendly. We have been offering our customers solutions for sustainable mobility for 11 years.

What is a unicorn platform?

With the Unicorn platform, you as a company or end user have an interface for an overview of your energy management. Where the power comes from, where it goes. With one platform, you can bring about your digital energy transition easily, quickly and effectively.

What is a unicorn energy fuel cell?

With the Unicorn Energy fuel cell you have your own compact power generator always with you and completely independent of the power grid. The fuel cell charges reliably, quietly and environmentally friendly all common 12 or 24 V battery types fully automatically. All around carefree!
