

Solar cell Trinidad and Tobago

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar project in the Caribbean.

roughly 40GW of solar PV- coupled with other clean energy technologies will be required to transition the entire Caribbean region to 90% clean energy to 2040. A Caribbean-based solar PV assembly facility can accelerate efforts along the entire sustainable energy value chain.

With abundant sunlight throughout the year, Trinidad and Tobago possess an untapped potential for solar energy utilization. From powering homes to industries, solar panels are becoming a common sight on rooftops, transforming skylines and reducing carbon footprints.

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar ...

Our team of experienced electricians and roofers specializes in both residential and commercial solar panel installations, with over 13 years of expertise. Based in Castara Village, Tobago, we offer tailored solar solutions nationwide using cutting-edge technology.

The Eco Sun brand offers products that are unrivalled within the solar industry. No one on the Renewable Power Caribbean team can remember ever having a single complaint about a Eco Sun product! Now that is what we call quality.
