

What are the different options for residential solar systems in Portugal?

There are 3 different options in Portugal for residential solar systems: See below for information on each option and what possibilities they offer. ESS SYSTEM VICTRON ENERGY An Energy Storage System (ESS) is a specific type of power system that integrates a power grid connection with a Victron Inverter/Charger, GX device and battery system.

Are home solar panels easy to maintain?

The amount of electricity that you can produce from a home solar system can easily power your entire household. Contrary to what most people think, home solar systems are easy to maintain. In fact, solar panels are very durable and will even take several years before requiring maintenance, which means less hassle for homeowners.

Why should you choose a home solar system?

Traditional power sources like coal, oil, and natural gas are responsible for the greenhouse gases, air and water pollution, and other toxic wastes that are causing major problems to the health of our environment. One of the main reasons many homeowners are opting for home solar systems is to save on monthly utility bills.
