

Why should you choose a solar system in Portugal?

With its sunny climate, Portugal, and especially the Algarve, is the perfect location to benefit from solar panels for both electricity and hot water. There is also a growing demand for battery solar systems, which allow you to store the energy for later use, and provide energy security for when EDP fails.

Can a solar system be installed in Portugal?

We can design and build a range of systems to suit your needs, from whole systems, to smaller solutions such as heat-pump installations. With its sunny climate, Portugal, and especially the Algarve, is the perfect location to benefit from solar panels for both electricity and hot water.

Are solar panels a good investment in central Portugal?

Experienced experts available on a per visit or daily rate. Here in Central Portugal, we get so much sun that the payback time for solar systems is particularly attractive. In addition, the price of solar panels has been dropping consistently over the past decade while quality, efficiency and reliability have been improving.
