At the end of the project, we were so pleased with the work that we asked UK Solar Power Panels to look into a battery system to compliment the solar panel system. Once again we obtained a very competitive quote from them and went ahead with the system which means we are now 80% off grid. ... admin@uksolarpowerpanels.uk. Sales 01403 788 635 ...

Onshore wind power could produce up to 45,000 MW of electricity. Solar energy has the potential to produce 2,000 kWh/m<sup>2</sup>. If other Somali electric companies follow BECO's example, Somalia's electrical production could increase many times over. It's fortunate that in Somalia's case, solar power is more affordable than the alternative.

4 ???; A typical 4kW solar panel system for 2-3 bedroom houses costs £5,000 - £6,000 with installation. Added together, the total cost of solar panels and a battery in the UK is £13,000 - £15,500.

This can be a good option if your roof isn't a suitable place to put a solar panel system. However, they may need foundations and can also be pricey. Find out more about types of solar panels and other buying advice for solar panels. To help decide which type of solar cells to go for, look at cost per watt (£/W) of power output.
