

Solar system quotations Malaysia

Why should you get a solar system quote in Malaysia?

This is why here at Solar Boost we encourage you to get a solar system quote before proceeding to a solar panel installation in Malaysia. By learning first of the necessary solar system installation price, you can better prepare for your planned solar system, location-wise and budget-wise.

How much does a solar panel installation cost in Malaysia?

A typical residential solar panel system in Malaysia is 6.6kW and a good quality installation will cost between RM18,500.00 up to RM30,000.00. But why the big difference in cost? Whether a 6.6kW system is an appropriate size installation for you or not is a good question and will depend on your electricity usage.

Can You DIY solar panels in Malaysia?

No. Installing a home solar system by doing-it-yourself might be appealing, but several factors discourage DIY solar panel installation in Malaysia: Solar panels in Malaysia are not readily available to the public. Procuring the required equipment may be challenging and could lead to higher costs and logistical hurdles.

Who is Solar System Malaysia?

This field is for validation purposes and should be left unchanged. Solar System Malaysia is a one-stop solar pv provider for large-scale solar projects and retail roof-top which covers residential, commercial, and industrial sectors in Malaysia.
