

What is Sonnenschein solar?

Sonnenschein Solar is a premium range developed for applications that require exceptional cycling performance. It has premium energy-saving features and excellent reliability and has been used for decades in many of the world's most demanding applications. What is GEL technology?

Is Sonnen coming to Belgium?

Wildpoldsried, 02 July 2020 - sonnen has launched in Belgium through an exclusive partnership with Opteco, one of the largest solar installers in the country. The company has marked its entry into Belgium by introducing sonnenBatterie 10, the latest battery designed for homes and small scale commercial developments.

What kind of battery does Sonnen use?

sonnen uses only lithium iron phosphate battery modules, which are free of toxic heavy metals and cobalt - a conflict raw material. In addition, they are particularly safe and durable, which makes this an ideal energy storage technology for virtual power plants. sonnen guarantees a performance of at least 10,000 charging cycles.

Which countries will offer the sonnenBatterie 10?

“Besides our established markets in Europe including the DACH region, Italy and the UK, Belgium will be the 12th country where we will offer the sonnenBatterie 10,” says Christoph Ostermann, CEO and founder of sonnen. “We are very pleased to have Opteco as an exclusive partner.

Are Sonnen & sonnenBatterie 10 a good fit?

With sonnen and the sonnenBatterie 10, we've found a perfect match and customers will become more and independent from the national grid and benefit from sonnen's globally recognised technology as well”, CEO Ben Kunnen of Opteco says. The sonnenBatterie 10 is a modular home storage system with an output of 4.6 kW.

How many kWh can a Sonnen battery handle?

The smallest version starts at 5.5 kWh and can scale up to 27.5 kWh. For commercial applications, the sonnenBatterie 10 can also be configured for up to 247.5 kWh. sonnen uses only lithium iron phosphate battery modules, which are free of toxic heavy metals and cobalt - a conflict raw material.

Maintenance-free sealed VLRA gel battery 1957 Ah (C100) 2V, 3000 IEC cycles, terminal F-M8. These batteries are developed for medium to large solar powered applications. This premium range was developed specifically for applications where deep cycling is frequent. It has extraordinary energy-saving features in addition to robust reliability, proven for decades in ...
