From its mountainous ridge and rich volcanic soil to the nearby ocean reef, Saint Kitts and Nevis in the northern Leewards of the Caribbean is teeming with natural land and water-based attractions and wildlife. Being a mere 68 square miles (176 square km) in size means everything is conveniently close and easily accessible, whether you are on foot or driving ...

On successful completion of this fully integrated solar photovoltaic system and a lithium-ion battery energy storage system (BESS), the facility will supply Saint Kitts with 30% to 35% of consumers" annual electricity ...

Ground has been broken on the St Kitts microgrid while negotiations and developments continue with the Nevis Geothermal project. The St Kitts facility to be comprised of 37.5MW solar PV and a 14.8MW/45.7MWh lithium-ion battery energy storage system is a major development for the nation and a landmark for the region.

The best time to snorkel in St. Kitts and Nevis is during the peak season, which runs from December to April. This period is the driest time of year but sees the highest hotel prices and busiest beaches. May is an ideal time to visit for those seeking a balance between nice weather and affordable rates.

3. Majors Bay. Despite its crystal-clear waters and idyllic sands, Majors Bay doesn't receive the recognition it deserves. It's located just a few yards from the end of the southeast peninsular, next to where the Sea Bridge ferry takes passengers to Nevis.

AIMS Power inverters are a must for mobile, off-grid and/or backup electricity in St. Kitts and Nevis. The electrical grids of St. Kitts and Nevis operate at 120 Vac 60 Hz and go down frequently, leaving residents of the area without electricity often. AIMS Power provides products to help residents of St. Kitts and Nevis achieve energy ...
