

Sumitomo energy New Caledonia

Does Sumitomo Electric have a power cable business?

Over the past few weeks, Sumitomo Electric issued three press releases about our power cable business that relate to renewable energy projects in Europe.

What will TotalEnergies do in New Caledonia?

Noumea, December 20, 2021 - TotalEnergies will develop a series of photovoltaic and energy storage projects in New Caledonia in order to deliver decarbonized electricity via a 25-year renewable power purchase agreement (PPA) for the industrial operations of mining and metallurgy consortium Prony Resources New Caledonia.

Is TotalEnergies developing a 160-megawatt solar project in New Caledonia?

TotalEnergies is developing a 160-megawatt solar project in New Caledonia as part of a 25-year renewable-power purchase agreement with mining and metallurgy consortium Prony Resources New Caledonia. The photovoltaic arrays will be developed between 2022 and 2025, along with 340 MWh of battery storage capacity.

Why do we support New Caledonia's energy transition?

We are very proud to support their energy transition, and that of New Caledonia, said Thierry Muller, CEO of TotalEnergies Renewables France. "As industrial firms, we think and act responsibly. Our two companies are committed to protecting natural resources and biodiversity, and to improving the situation of local communities.

Why is New Caledonia a carbon emitter?

Because of its nickel industry, New Caledonia is one of the world's largest carbon emitters per capita. And mining, which began soon after New Caledonia was colonized in 1853, is intimately linked to the exploitation of its Indigenous Kanak people.

Could a plant in New Caledonia make electric car batteries better?

Nickel is vital to electric car batteries, but extracting it is dirty and destructive. A plant with a turbulent history in New Caledonia is about to become an experiment in doing it better. GORO, New Caledonia -- From the reef-fringed coast of New Caledonia, the Coral Sea stretches into the South Pacific.

TotalEnergies (TTE) is set to enhance its renewable energy footprint in New Caledonia by developing photovoltaic and energy storage projects in collaboration with Prony Resources New Caledonia. This strategic initiative includes a 25-year renewable power purchase agreement, aiming for a total installed capacity of 160 MW and 340 MWh of battery ...

Nickel miner Prony Resources New Caledonia has brought its staff back onsite as it prepares to restart output

Sumitomo energy New Caledonia

after a six-month suspension triggered by riots in the French territory. The company, which operates the Goro mine and a plant producing battery-grade nickel, returned workers to facilities on Monday, a spokesperson said.

By securing nickel in places like New Caledonia or Australia, then sending the mineral directly to its own battery-making facilities, Tesla would be able to reduce its shipping carbon footprint.

By combining solar energy and energy storage to replace electricity generated from coal, TotalEnergies is demonstrating its ability to provide a sustainable energy solution to ...

By combining solar energy and energy storage to replace electricity generated from coal, TotalEnergies is demonstrating its ability to provide a sustainable energy solution to Prony Resources New Caledonia while meeting demanding local, industrial, environmental and social requirements.

By combining solar energy and energy storage to replace electricity generated from coal, TotalEnergies is demonstrating its ability to provide a sustainable energy solution to Prony Resources...

TotalEnergies to develop 160 MW solar power and energy storage project in New Caledonia The renewable power will help decarbonise Prony Resources" mining and metallurgy operations in the South...

TotalEnergies will develop a series of photovoltaic and energy storage projects in New Caledonia in order to deliver decarbonized electricity via a 25-year renewable power purchase agreement (PPA) for the industrial operations of mining and metallurgy consortium Prony Resources New Caledonia.

Nickel miner Prony Resources New Caledonia has brought its staff back onsite as it prepares to restart output after a six-month suspension triggered by riots in the French ...

Sumitomo Metal Mining Co., Ltd. ("SMM", Headquarters: Minato-ku, Tokyo President and Representative Director: Nobumasa Kemori) has decided to open a representative office in Noumea, the capital of French-governed New Caledonia.
