

Sure energy Micronesia

What are the guiding principles for energy development in Micronesia?

In addition, the policy establishes the following guiding principles for energy development in the Federated States of Micronesia: (1) the spread of benefits to disadvantaged communities, (2) increased public awareness and local capacity, (3) private sector involvement, and (4) community solutions.

Does Micronesia have a state-owned utility company?

state-owned electric utility company. Because the Federated States of Micronesia is so geographically dispersed, three of the four utilities must serve a populous core island or group of islands as well as numerous remote islands; the Kosrae Utility Authority is the only utility that serves a single island.

How does the geography of Micronesia affect electricity?

The single island of Kosrae has an electrification rate of 98%, while Chuuk, spread across seven major island groups, achieves a rate of 26%.⁵ Aside from limiting access to electricity, the geography of the Federated States of Micronesia has several other adverse effects on utility operations.

How many people in Micronesia have electricity?

Approximately 76 percent of households in Micronesia have some form of electrification, however access rates vary widely among states; Kosrae and Pohnpei have a 95 percent electrification rate while only 27 percent of Chuuk's population have access to electricity. The project aims to:

The Vital Group consists of Vital FSM Petroleum Corporation (which operates in all of the FSM states) and its affiliate Vital Energy, Inc. which has operations out of Nauru and Guam.
