

TikTok names related to photovoltaic panels

What happens if you use a solar hashtag on TikTok?

Content that doesn't relate to solar and renewable energy but uses these hashtags can risk being reported for spam, leading to penalties from Instagram or TikTok. Your products and services revolve around solar technology and renewable energy, thus your hashtags should reflect the same.

How to promote solar energy on Instagram & TikTok?

Using popular solar related hashtags like #SolarEnergy, #CleanEnergy or #Sustainability can significantly increase your content exposure and boost your brand awareness. Constantly keep an eye on solar-related hashtags that are making waves in the Instagram and TikTok sphere.

Should solar companies use location-based hashtags on Instagram and TikTok?

Using location-based hashtags on your posts can help to increase your local visibility on social media platforms like Instagram and TikTok. This strategy usually appeals to solar companies aiming at reaching potential customers in specific regions or areas.
