

Timor-Leste 24v solar battery prices

How much does electricity cost in Timor-Leste?

The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries. For instance, in Indonesia industrial electricity tariffs are 0.11 USD/kWh, compared to 0.24 USD/kWh in Timor-Leste.

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

How long does a solar system last in Timor-Leste?

High electricity costs and readily available solar radiation mean that the average payback period for a rooftop photovoltaic (PV) solar energy system in Timor-Leste is only 1.5 to 3 years instead of the global average of 6-10 years. Transitioning to solar can also help the country meet environmental commitments.

Is Timor-Leste a good country for solar energy?

Timor-Leste has a high-quality solar resource. The global horizontal irradiance in Dili is higher than on the east coast of Australia, where the solar market is mature and installation costs are higher. The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries.

Do Timor-Leste businesses experience electricity outages?

Research shows that nearly all businesses in Timor-Leste experience electricity outages, in some cases multiple times a week. Outages affect businesses in different ways: For tourism businesses, it impacts customer experience (internet, device charging, air conditioning and fans, food quality, and inability to refuel diving tanks).

Why is Timor-Leste not able to finance solar panels?

MDF research found that lenders in Timor-Leste are unwilling to lend to small and medium sized enterprises due to levels of default, perceived risks, and the difficulty of securing collateral. Evaluate the upfront costs of installing solar panels versus long-term savings. Consider financing options to determine overall economic viability.
