2 ???&#0183; Wind power makes up around 21% of Sweden's energy mix, but the vast majority is onshore, where the government has said it will introduce financial incentives for local ...

1 ??&#0183; Swedish firm aims for 100x plasma confinement boost in new fusion reactor The success of fusion power plants hinges on the quality of energy confinement. Updated: Dec 14, 2024 08:05 AM EST

Chinese wind tower maker Titan Wind Energy (SHE:002531) has decided to invest up to EUR 300 million (USD 321.7m) to build a production facility for monopiles for offshore wind farms in Cuxhaven, Germany, the ...

Titan Energy Kft is dedicated to investing in renewables and green technologies for a sustainable future. With a focus on scientific research and worldwide collaborations, we aim to provide cleaner energy solutions and innovative technologies for a greener planet.

Sweden's opportunities to become a global leader in clean energy technologies and low-emissions industry are considerable, and actions taken in the short-term will inform its long-term ability to capitalise on this opportunity.

With international collaborations, excellence in complex projects and as specialists in advanced contracting, Titan Konstruktion is now ready to climb further within the industry, which is challenged by increasingly high sustainability requirements.

The electricity we use in Sweden is currently 98 percent fossil-free, but if the transport sector and industry are to succeed in their transition, the total electricity use will increase sharply. Then new fossil-free electricity production is needed, including in the form of solar and wind energy.

2 ???&#0183; Wind power makes up around 21% of Sweden's energy mix, but the vast majority is onshore, where the government has said it will introduce financial incentives for local communities to accept new ...
