

Can Tunisia build a large-scale solar project?

Tunisia's Ministry of Industry, Mines and Energy has kicked off a new procurement exercise for large-scale solar. Tunisia's Ministry of Industry, Mines and Energy has launched a tender for the construction of several large-scale PV projects with a combined capacity of 200 MW.

How will a solar plant in Tunisia benefit from debt financing?

The 100-megawatt, \$86 million solar plant located in Tunisia's Kairouan governorate will benefit from up to \$26 million in debt financing from the African Development Bank, including \$13 million sourced from SEFA, a multi-donor fund that provides finance to unlock private sector investments in renewable energy and energy efficiency.

Does Tunisia support solar?

Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019. The country's cumulative installed PV capacity stood at just 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

Who financed Tunisia's first solar project?

The African Development Bank and the Sustainable Energy Fund for Africa (SEFA), in partnership with the International Finance Corporation and UAE's AMEA Power, today herald Tunisia's first privately-financed solar project.

Why should Tunisia invest in Kairouan solar?

The plant is central to Tunisia's strategy to reduce its reliance on natural gas. It aims to bolster the nation's renewable energy share to an ambitious 35% by 2030, thus the Kairouan Solar project is not just about power generation; it is about regional transformation.

When do solar projects start in Tunisia?

Interested developers have until Jan. 15 to submit their project proposals. Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019.

The company signed a concession and power purchase agreement (PPA) for the project with the government of Tunisia on Wednesday. The solar plant will be built in the Tataouine governorate. When operational, ...

Amidst a deteriorating security situation characterized by the assassination of two political leaders (in February and July 2013), the lethal attacks on the Tunisian army in the Chaambi mountain range, and the ongoing clashes with the police, Tunisia is elbowing its way towards democratic transition. Compared to other

Arab countries, Tunisia has made noticeable advances in what ...

Tunisia portfolio, 120 MW Under construction. In 2019, Scatec was awarded 20-year PPAs, with options for 10-year extension, with the Tunisian state utility STEG for the two solar projects totalling 120 MW. In August 2024, Scatec signed a partnership agreement with Aeolus SAS, part of the Japanese conglomerate Toyota Tsusho Group, to jointly ...

Solar and wind power are infinite sources of energy. Export Projects Three Projects in One. TuNur is developing a series of renewable energy projects that will produce low-cost green electrons and molecules in Tunisia for export. Each export project consists of three components: 01. Generation. 02. Transmission. 03. Energy Sale. About Us > 0 TWh.

The 100-megawatt, \$86 million solar plant located in Tunisia's Kairouan governorate will benefit from up to \$26 million in debt financing from the African Development Bank, including \$13 million sourced from SEFA, a multi ...
