

Tunisia qualitas energy

Who is Qualitas energy?

Qualitas Energy is a leading fund manager focused on renewable energy, energy transition and sustainable infrastructure. +18 years of outperforming track record in energy transition. Including GP and in-house industrial Service teams (as of September 2024).

What percentage of Tunisia's electricity is renewable?

In 2022, only 3% of Tunisia's electricity is generated from renewables, including hydroelectric, solar, and wind energy. While STEG continues to resist private investment in the sector, Parliament's 2015 energy law encourages IPPs in renewable energy technologies.

Why is Qualitas energy a sustainable company?

That is why Qualitas Energy was created and why our business and our investments aim to achieve sustainable ends, whilst generating returns for our investors, who like us, believe in a better future. We are firmly committed to reducing the impact of our footprint by offsetting our office emissions and becoming Carbon Neutral.

Does Tunisia have natural gas?

In addition to local gas production, Tunisia receives natural gas as a royalty on the Algerian Transmed gas pipeline crossing Tunisia to Italy. In 2022, only 3% of Tunisia's electricity is generated from renewables, including hydroelectric, solar, and wind energy.

What is the energy sector in Tunisia?

The sector also offers opportunities for possible Build-Own-Operate (BOO) or Build-Operate-Transfer (BOT) projects. Much of Tunisia's electricity production comes from gas turbines. Major players in this sector include General Electric (USA), Mitsubishi (Japan), Ansaldo (Italy), and Siemens (Germany).

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.
