

U S Virgin Islands building battery backup

The Virgin Islands Energy Office (VIEO) develops and delivers policies and programs designed to support the growth and sustainability of clean, resilient, reliable energy production and distribution in the Virgin Islands in order to create an affordable energy future for all residents, businesses, communities, and institutions.

The U.S. Virgin Islands (USVI) includes the three main islands of St. John, St. Thomas, and St. Croix. The U.S. territory has a population of about 87,000 000 (U.S. Census Bureau 2022), and the primary industry is tourism (CIA 2023) . USVI is highly reliant on fossil fuel for their energy and all fuels are imported.

Battery backups can operate continuously for 4 to 5 hours or intermittently as long as a day. Water-powered backup pump. Source: Liberty Pump. Water-powered backup sump pumps are an alternative to battery-powered pumps. As opposed to 120 V or battery backup pumps, water-powered pumps do not require an external electric power source.

On Friday, May 24, the Virgin Islands Energy Office (VIEO) began accepting applications for a new federally funded initiative that aims to reduce the financial hurdles impeding residents from investing in automatic battery backup systems. The Virgin Islands Energy Storage (VIBES) Rebate Program provides up to \$4,000 in rebate incentives for the ...

Easing the financial hurdles that are barring you from installing an automatic battery backup system at your home or business is the main goal of the VIBES program. VIBES is federally funded through the State Energy Program Bipartisan Infrastructure Law (SEPIL), and is a ...

BMR Energy's Spanish Town facility on St. Croix has more than 16,000 solar panels. (Source file photo) Editor's Note: This article is the last in a four-part series looking at the the V.I. Water and Power Authority, its past failures and challenges, and its more recent efforts to build a more affordable, reliable and modern grid.

Since 2017, we've exceeded our goal of installing TWO MEGAWATTS of solar territory-wide. That's a lot of positive energy! Plus, we've donated a matching 100 percent of our marketing budget to local non-profit organizations and community projects that focus on strengthening energy resilience and sustainability.. We believe that by taking actionable steps toward a ...
