

U S Virgin Islands solar energy installation

What is the USVI solar+ financing pilot program?

The USVI Solar+Financing (SPF) Pilot Program is a loan program for residential solar PV and Battery systems being offered through the Virgin Islands Energy Office and the VI Water and Power Authority. Through on-bill repayment this program allows property owners to pay for renewable energy systems through their monthly utility bill.

How much of the US Virgin Islands' electricity is generated by solar?

In 2020, about 20% of the US Virgin Islands' electricity was generated by renewables. Approximately 80% of this renewable capacity came from customer-installed, small rooftop solar panel systems, while the remaining 20% came from utility-scale solar energy facilities.

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.
