Jacksonville's top solar companies are Project Solar, Sunrun and ShopSolar. Compare local reviews, energy services, equipment options, warranties and more.

How do I choose a solar company in Jacksonville?

Prior to picking an installer, ask others for suggestions, evaluate potential companies and request multiple quotes to identify the right company for your requirements. You can find a local solar company in Jacksonville or use a well-known national brand.

How much does solar cost in Jacksonville?

The average price of solar is about \$2.06 to \$3.1 per watt in Jacksonville, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Can you still use solar power in Jacksonville Florida?

Places with varied sunshine levels, including rainy or cloudy areas like Jacksonville, can still use solar power. The top reasons to adopt solar energy are: Reduce environmental impact: Switching to solar shrinks your carbon footprint by conserving fossil fuels that would otherwise be used to power your home.

What are the most common solar scams in Jacksonville?

One of Jacksonville's most common solar scams involves fake solar companies selling systems without any intention of really installing them. The other one is falsely claiming to be affiliated with state agencies.

Are there solar incentives available in Jacksonville Florida?

There are multiple solar incentives available to homeowners in Jacksonville. Certain programs are applicable to all Florida residents, while others are dependent on your municipality, city and utility company. The following solar incentives are accessible to Florida residents, as listed in DSIRE:
