What are solar powered toys?

These solar powered toys are a fun and educational way for kids to learn about green energy. The kits come with everything you need to build the toy, and once it's assembled, watch as the solar panel powers it up! These make great gifts for any occasion. As an introduction to solar energy I...

Can a solar toy be assembled?

The solar toy works well when assembled but the tiny wooden pieces are fragile and not all of them fitted into the slots provided so it was easy to break them trying to get them to fit. Fortunately there is enough redundancy in the parts that it still holds together, but small children would find it very difficult.

What can I do with a solar power system?

There is something here for one and all! Solar, wind and water powered model robots, moving fun animals, Aluminium cyclists, exquisite wooden helicopters, Stirling engines that work sitting on your hand! Powerful solar powered or wind up torches and lighting for all your camping and outdoor living needs.
