

# You can install rooftop photovoltaic panels yourself

Can I install my own solar panels?

Yes, you can install your own solar panels. Sunstore Solar can provide professional installation, but we appreciate some people like to get stuck into a project. We designed our solar panel kits specifically for DIY solar panel installation projects. And what better project than providing energy security for your family or business?

Can you install solar panels on a roof?

Most DIY home solar panel installations in the UK are roof mounted. As long as you're happy up a ladder, the process isn't as difficult as you might imagine. We recommend planning in advance where you'll put the panels to determine where you need to install the frames and brackets. It's a lot easier when you have a plan!

Can solar panels be mounted on a flat roof?

For solar panels on a flat roof, mounting systems are slightly different and can include a triangle 'ballast' box to support the panels. For solar thermal panels (with cells that use the sun's heat to warm water in a house) things are a little different.

How do you install solar panels on a rooftop?

Also, consider how you're going to maximise sunlight exposure throughout the day. Attach your mounts to the side that receives the most daylight at an 18-36 degree angle. Once your mounts are securely in place, it's time to place the panels themselves. EcoFlow offers both rigid and flexible solar panels to suit your rooftop installation needs.

Can a solar panel be installed on a south-facing roof?

A solar panel will be most effective if you have a south-facing roof. This will ensure maximum sunlight reaches the panel. You will also have to make sure that your roof can support a panel, and that it has a large enough area for panel installation. Under Permitted Development Rights, you won't require formal permission to install a solar panel.

Do I need planning permission to install solar panels on my roof?

When considering the installation of solar panels on your roof, it's critical to understand if you need permission. In the UK, solar panel installations often fall under "Permitted Development," meaning you typically won't need planning permission.
